ONLY A LAUGH.

Only a laugh, but the joy of the hours in it. Dropping so blithely from out of the gloom, Down from the casement that has the red flowers, 3 in 12. Flooding with sunshine my poor little room. Only a laugh, but I know well whose chides it is; Oh, I can guess whose lips that can chaff, Whose the smiling mouth, whose bubbling voice it is, Putting such perfume in only a laugh!

Only a laugh! My lone life is so shadowy, Tinged with the darkness that solitude grows, Most of the brightness dimmed, most of its glad away, Most of its tenderness chilled by the snows.

Only a laugh, but so much of the gay in it! Oh, were there love 't would be sweeter by half! I could forget that my hair has its gray in it! Were it for me more than—only a laugh!

—New York Press.

THAT PLATFORM MADE BY THE TRUSTS.

The trusts have done a work at Philadelphia under the heading "Republican National Convention" that has given to the country William McKinley as their candidate for President and Governor Roosevelt of New York as their candidate for Vice-President.

The usual double-dealing is present in their platform from its beginning to its close. The prosperity of the country is elaborated, and claimed to be due to the policy of the Republican party and William McKinley. The causes that have given a foreign market for our products are not mentioned. Why should the trusts mention the causes? There would be an approximation to truth in the mention of causes for a foreign demand for American products, which a trust convention could not tolerate, as the country would not recover from the surprise it would bring till after the election, which would undoubtedly result in a defeat of their candidates. The gold standard is made a sun of righteousness, whose beams have multiplied the number of dollars that are in circulation. Care was present not to credit the increase of dollars in circulation to its proper source, which is in the increase of our foreign trade because of war conditions.

A solution of the question presented by the increase of dollars in circulation is not made for the sufficient reason that it would include truth, which a trust convention could not have in its platform. Opposition to the free and unlimited coining of silver is declared with a meaning that reveals the double dealing trusts on that subject at St. Louis four years ago. The trusts are opposed to trusts that have for their object a restriction of business, or that limit production to control prices, and they favor legislation to prohibit all such combinations, which would be very good in the trusts to favor such legislation, were there any such combinations according to trust construction to prohibit.

It will be observed by those who read the platform that the honest co-operation of capital to meet new business conditions, and especially to extend our rapidly increasing foreign trade is favored. The honest purpose mentioned according to trust construction is the object of all combinations of capital, which is a very smooth way of disposing of an untruth and covering the most extensive villainy of the age. Protection to American labor is declared and affirmed which includes a principle most vital to progress of the right kind.

Protection to labor is imperative upon an enlightened people, as in it all progress has its origin and receives its life and energy. But in the declaration made by the trusts there is a fraud upon labor as the means used as claimed for its protection is made a means for its oppression by the trusts. The protection given to labor is used to protect trusts, and in the protection of trusts there is a means for the oppression of labor that offsets many times the protection received by labor. There is not anything the trusts are not willing to do for the protection of labor on paper, while the whole trust system is a direct attack upon labor and upon its best interests in all of its departments, which is well known to economists and intelligent people.

The trusts at Philadelphia declare in favor of the construction, ownership, control and protection of an isthmian canal by the government of the United States, while the administration and the trusts in the United States Senate at Washington have and will continue to oppose it. The declaration favoring a canal is one of the most bare-faced frauds that could be attempted upon the people by the trusts.

The trusts in convention announce their adherence to the Monroe doctrine, and oppose it at Washington by insisting that Great Britain shall be recognized in the construction of a canal over the isthmus. It is known to the country that the administration has caused the House canal bill to be hung up in the Senate until the treaty known as the Hay-Pauncefote treaty, recognizing the rights of England in the canal, is passed. One among the last things of note during the last session of congress, accomplished by Mark Hanna, when representing the administration, where he declared that the canal bill could not pass until the Hay-Pauncefote treaty was approved by the Senate, and the canal bill was then and there hung up, to be taken down when the treaty is ratified as demanded by McKinley, Hay and Hanna.

The Boer war is referred to as a sort of sideshow by the trusts, for the increasing of the power of the administration toward a stronger republic. It is said the administration had to do as it did do, because of international matters; but it is recited that President McKinley tendered the good offices of the government in the interest of the Boers by seeking to arrange the matter of difficulty between England and the Boer republic; which is a fraud when it is known that Secretary of State Hay, when informed by the Boers, made it known to England that the power of Europe would be called to intervene in the war which information caused England to consider the defeat of warships and gunboats to attempt to intervene.

The communication by Hay to England of the secret of intervention was a breach of international good faith not to be forgiven had the Boers the power to get even.

The policy of the government regarding our new possessions is as much in darkness as it has been at any time. There is not anything certain respecting it, which is a policy of the trusts to aid them to continue an imperialistic course toward the islands and their inhabitants.

The Democratic party is a very weak party, tending to trust and unworthy of confidence by the people. It is too stupid to have control of government, as bad times will be sure to follow, which conclusion must be arrived at from information received from the Almighty, who always rules when the Democracy are in power, saying that he will cause good crops to grow in Europe and bad crops to grow in the United States, to destroy our markets abroad.

The weakness of the Democracy is such that it will have no better sense than to close out trusts, called honest combinations of capital. It will be sure to meddle itself with the wholesale robbery of the people by those honest combinations arranged in the interest of commerce and commerce, which will be proof positive of its inability to govern in the interests of trusts. The Democracy will have no better sense in matters of government than to govern in the interest of the people. The latest from Philadelphia is, d-n the people.

Special to the JOURNAL.

WASHINGTON, June 22.—Rear Admiral Kempff has telegraphed for more men and ships to protect American interests in China. He is in urgent need. The force in the Phillipines has already been so reduced that troops for China must be sent from this country.

LONDON, June 22.—Alarming reports come of the massacre of all foreigners in Peking, but nothing official.

The mill and placer returns for the last week in Olinghouse amounted to over \$1,000.

Rapid progress is being made at the Gould & Curry mill. The ore bin is completed and the frame of the main building is up.

Four, sept. 1, 1900, which averaged \$28.40 in gold per ton was recently struck in an unexplored part of the Chairman mine at Ely. White Pine county.

The galena ore veins in Siegel district, northeast of the Comstock, have recently been relocated, and the outcrop is considered evidence that by sinking to a depth of 300 feet or more the narrow veins may converge into a considerable body of ore. In Nye, White Pine and Lincoln counties mining locations with a less favorable showing have been bonded and developed into paying mines—Chronicle.

Millions Given Away.

It is certainly gratifying to the public to know of one concern in the land which is not afraid to be generous to the needy and suffering. The proprietors of Dr. King's New Discovery for consumption, cough and colds, have given away over ten million trial bottles of this great medicine, and have the satisfaction of knowing it has absolutely cured thousands of hopeless cases. "Asthma," bronchitis, "hoarseness and all diseases of the throat, chest and lungs are surely cured by it. Call on Dr. J. Hodgkinson, Druggist, and get a trial-bottle. Regular size, 30 cents and \$1. Every bottle guaranteed or price refunded.

Carson Against Reno.

Sunday at 1:30 in the afternoon a rousing old crowd will greet this contest of brawn, muscle and trained skill.

You would be surprised if the time made by members of both teams was whistled in your ear. We will say that it is record-breaking and no more.

Every relay promises to be exciting, and not until the final one is reeled off will the race be decided.

Go out and see whether Reno's crimson and white or the purple and gold of Carson will wave triumphantly over the lucky winners.

Great Mining Excitement.

The mining excitement of Reno is running high, but we shall all lay aside business interests and spend the

Fourth of July at Steamboat Springs.

—

Comstock's New Era.

There's a wave of prosperous feel-

ing following new life and vigor in Vir-

ginia City affairs. With the advent of

cheap power and the modern and

economical working of the Comstock

mines, our neighbors begin to see

things in a new and pleasing light.

Vast quantities of low grade ore can

be profitably worked with this new

electrical current, which will soon be

supplying unlimited power to the sup-

posed-to-be dead mining camp on

Mount Davidson.

We are glad to hear such good news

from our neighbors, and only wish

Virginia City a boom that will make

her flush days of yore.

The Last Entertainment.

The Quaker doctors will close the

sale of their property Saturday evening, thus giving every one a last

opportunity to get these highly satis-

factory medicines at the advertising

price. The little dog Dandy will

make his debut the last time,

and Holmes Howard will give illus-

trations of old colored and Irish women.

The entertainment will be closed with

a laughable farce thus closing a three

weeks' stay, which has proven highly

satisfactory to their many patrons and

large audience. The doctors will

continue, however, to give next week thus

giving all an opportunity for free con-

sultation and examination.

Tuesday evening, June 20, Rev. Mr.

"The Mission of Mirth," at the

Baptist church. The lecturer

gives a good impression wherever he

goes.

JACK DAUCHY'S SAD DEATH

First and Foremost Among Reno's Most Popular Young Men.

A gloom settled over the city yesterday when news of Jack Dauchy's death became known. The fatal illness which resulted in his death was of such brief duration that many friends were taken completely by surprise on learning of his death.

Last Tuesday Jack scratched a small boil on the top of his head with a pen knife, and a malignant attack of blood poisoning set in. Although quite sick nothing serious seemed the matter until Thursday afternoon. Then a rash was noticed on his neck and arms and the glands in his throat began to swell.

Dr. Lewis was summoned early Friday morning and pronounced the case serious at first sight. Drs. Phillips and Hershiser were called in consultation, but their decision proved only a corroboration of Dr. Lewis. Poor Jack sank into a delirious fever and remained almost totally unconscious until death terminated his suffering. The old father is prostrated and mourns the loss of a noble and thoughtful son.

Jack has been living with Mrs. Coffin and family for several years, and by them is regarded as son and brother. Every one in Reno will miss the genial clerk in Sunderland's shoe store, and all offer heartfelt sympathies to grieve stricken relatives. Jack belonged to the Macabees and held life insurance policy of \$2000 in that order. The Wheelmen and "Owls" also claimed Jack as a member.

The funeral will be held next Monday forenoon at 10 o'clock.

CLASS OF '00 GRADUATE

Thirteen Bright Girls and Boys Receive Diplomas from the High School.

GOLD ON ALUM CREEK

Rocks Taken From a Two-Foot Ledge Which Assayed Way Up.

Not an unlucky aggregation, but an entirely progressive and brilliant were the thirteen young men and women who successfully finished their public school education last night.

McKissick's opera house looked splendid in its tasteful decorations of bunting and class colors, flowers and the large concourse of friends and fond parents.

The usual sedate evening apparel of the young men graduates was not in evidence, but natty white duck trousers and shoes gave a pleasing tone to the stage setting.

The program proved most entertaining, and every number brought out some new feature of excellence or originality in the participants.

Evidently the boys were too gallant to wreath honors from the girls, for, strange as it may seem, out of the thirteen graduates four were girls, and to each young lady an honor was awarded. The new woman is forging rapidly to the front, and can ably take care of her own proceedings, as the above will show.

Mrs. Layton's proficient ability as a musical instructor shows up better each successive year, and the program was a treat to devotees of "the concord of sweet sounds."

We regret that individual mention cannot be made of each and every graduate, especially those who entertained the audience with oration, song, essay and music. Suffice to say that the commencement exercises of the B. H. S. naughty-naught class were merititons in every respect.

The honors were given out as follows: First, Mary Lea Benson; second, Annie Isabel Frandsen; third, Mabel Hayward Blakeslee; honorary mention, Agnes Pearl Gibson.

Those who received diplomas were:

COLT'S INVENTION**The First Great Improvement Made in Repeating Pistols.**

In this day of improved firearms the fact that the first great improvement made in repeating pistols by Colonel Samuel Colt was patented in the day of our grandfathers is seldom recalled. It was Colonel Colt, then of New York, to whom was granted the patent, Feb. 26, 1856. The original petition in the case was destroyed by the fire in December following. The letters patent were returned when application was made for the reissue, Sept. 1, 1859. The original letters are signed by Andrew Jackson, president; John Forsyth, secretary of state, and Benjamin F. Butler, attorney general.

After describing his invention Colonel Colt claims as new "the application of caps at the end of the cylinder, the application of a partition between the caps, the application of a shoulder over the caps as a security against moisture and the action of smoke upon the works of the locks, the principle of the connecting rod between the hammer and the trigger, the application of the shackle to connect the cylinder with the ratchet," etc.

There had been a revolver patented about 20 years before by one Colton, but until Colt's invention little headway was made. Indeed it was not until Colt's invention had been given a trial by Major Sam Walker and his Texas rangers that it gained popularity and was regarded as a success. About the time Colonel Colt was applying for a reissue, in 1848, Mr. Weston had filed an application for a repeating firearm, by which the Smith & Wesson pistol of today is represented. —Washington Star.

The Magical Mirror.

An ordinary mirror of any size or shape, piece of French chalk, pointed so that it can be used to write, and a silk handkerchief are the requisites. Draw upon the mirror with the chalk, any design or words you choose. Having the handkerchief wipe the glass lightly until it is perfectly clear and no writing or design is apparent. Having all this prepared beforehand, show to some one, and request that he breathe gently on the face of the glass, when he will see—a picture of his future wife, for the design drawn will show very distinctly. This can again be wiped off, and if breathed upon the design will be again visible.

Automatic Renown.

"Kirby could become famous if he weren't so lazy."

"Oh, he will get famous yet."

"What do you mean?"

"Why, he takes such good care of himself that he will live to be 100 and be famed for that."—Detroit Free

Heartless Man.

"Dear," said the dying man, "I don't want you to go into mourning for me when I am gone."

"Oh, George!" she sobbed. "Don't be so hard upon me."

"Hard? Why, love, I simply want you to be happy. You are young yet. Why should you deck yourself with widow's weeds?"

"It's mean of you, George! You know black is so becoming to me!"—Catholic Standard and Times.

It is easy to say, "Don't mind it," but we all do.—Atchison Globe.

Remarkable Cure of Rheumatism.

KENNA, Jackson Co., W. Va.

About three years ago my wife had an attack of rheumatism which confined her to her bed for over a month and rendered her unable to walk a step without assistance; her limbs being swollen to double their normal size. Mr. S. Maddox insisted on my using Chamberlain's Pain Balm. I purchased a fifty-cent bottle and used it according to the directions and the next morning she walked to breakfast without assistance in any manner, and she has not had a similar attack since.—A. B. PARSONS. For sale by Wm. Pinniger.

In almost every neighborhood there is some one whose life has been saved by Chamberlain's Colic, Cholera and Diarrhoea Remedy, or who has been cured of chronic diarrhoea by the use of that medicine. Such persons make a point of telling of it whenever opportunity offers, hoping that it may be means of saving other lives. For sale by Wm. Pinniger.
